

Exploration with Rotation,  
Not Vibration

## Zumio – Exploration with Rotation, not Vibration

Inspired by instinctive, natural motions, Zumio is a pleasure product unlike any other. Zumio's precision SpiroTip™ rotates in tiny circles, stimulating without vibration. This unique motion coupled with Zumio's size and shape allows for endless exploration that can be used individually or with a partner.

Because sensitivity is personal, Zumio offers three unique options that vary sensation: Zumio Models X, S, and E each feature unique stems and tips, delivering pleasure differently.

Each Zumio operates with 8 speeds and pressure-sensitive intensity. Press gently for light stimulation, press firmly for slower, deeper stimulation. Zumio is 100% waterproof, whisper quiet, body-safe, and includes a 1-year warranty.

## Our Mission

Through pleasure, exploration, and personal growth, Zumio is committed to enhancing users' sexual wellness.

Zumio is a highly unique product designed to give users complete control of their own pleasure and sexual experience, delivering improved intimacy and increased overall wellbeing.

By thinking outside the conventional sex toy box, Zumio aims to help users learn about themselves through exploration and strengthening the connection to their own physical wellness.

## Our History

The idea for Zumio came from the mind of a woman seeking to experience pleasure while juggling the throes of everyday life. A single mother with three small children and two jobs, she was looking for sexual satisfaction that came quickly, on-demand. Through trial and error, she discovered the unique motion that would eventually give rise to Zumio.

Founded in 2012, Zumio was designed and tested by the same group that produced some of the most iconic and best-selling pleasure products in the industry. Since its inception, Zumio has received numerous industry awards and nominations and has been praised by top sex bloggers and professional reviewers around the world.
