Model differences:

x: The long, flexible stem creates concentrated energy at the contact point and the uniform shape of the spherical tip keeps the stimulation even, no matter how you twist or turn the toy.

s: The short stem creates a slightly smaller rotational pattern and the expanded contact area provides more contact with the skin and disperses the stimulating energy for a lower intensity.

e: The extra rigidity of the curved stem creates a more even delivery of the rotational energy and the teardrop-shaped tip creates varied sensations depending on which area of the tip is placed against your body.

i: The spoon-shaped tip spreads stimulating energy across a larger area, creating a more diffuse range of sensations. Use the wide faces to cup over the skin for deeper pulses or the narrow edges for more precise stimulation.

Pro selling tips:

Zumio is always better with lube -
you can recommend water based OR silicone.

Explain Zumio's "slow build" technique:

Slowly move Zumio's tip toward the clitoris, building arousal as you go.

**Suggest using Zumio to first learn about what feels good,
then to show your partner.**

Also great for:

- Foreplay:
Discover new erogenous zones

- Underwater use:
Zumio is 100% waterproof to 1m

- Travel:

= ready for take off

Zumio is perfect for anyone!

- New to toys
- Experienced users
- Men, women and couples

Exploration

Zumio is designed to deliver pleasure and let the user learn about their body through targeted stimulation.

Rotation

Zumio's tip rotates, creating an extremely unique sensation where it makes contact.

Not Vibration

Zumio does not vibrate - the result, no numbing or lingering 'buzzing' sensation.

Precise Stimulation

Zumio's unique SpiroTip allows isolated stimulation to very specific areas without overstimulation.

Pressure Sensitive

Zumio's mechanical design adjusts the intensity depending on how much pressure you apply with the tip. Press gently for light stimulation, press hard for a slower, deeper, pulsating stimulation.

Partner Friendly

Zumio's small size makes it perfect to use during intercourse to provide stimulation when and where you want it.
